200 People by the Hair

A healthy hair will support onequarter of a pound. There are 120,-000 of these on the head. Figure it out. It is equivalent to holding an audience of 200 people weighing 150 pounds each! That doesn't seem possible, but it's so.

It doesn't seem possible, either, that Ayer's Hair Vigor can restore color to gray hair; but it does restore it, and every time, too. It also stops falling of the hair and keeps the scalp clean and healthy.

"Your wonderful Hair Vigor has been used for the past three years. It keeps the scalp healthy and vigorous, and has produced a luxuriant growth of hair of which I am indeed very proud."—Mrs. I., STEITZ, St. Louis, Mo.

No. 2013 Thomas street Wednesday afternoon and despite the efforts of his family and the police it has been impossible to locate him. It is feared by his friends and relatives that he has met with foul play as at the time of his disappearance he wore a valuable gold watch and, it is thought, had in his possession a considerable amount of money. Mr. Ruppenthal's friends say that he was a man of unusually steady habits and never remained away from his home over night, also that for the last few months his Ill-health had compelled him to give up his employment at the brass foundry of his father, No. 1602 North Broadway.

Wednesday afternoon he tired of remaining about the house and, telling his mother that he would walk around the block pending the preparation of the evening meal, he departed from the house. At Garfrison avenue and Thomas street Ruppenthal was last seen.

He was attired in a summer suit of light color and texture which he had been meaned in skeen. His overcoat he left hanging in the hall.

POULTRY HANDLING CAUSED HIS DEATH.

Gustave A. Ludwig Contracted Blood Poisoning and Physicians Could Not Save Him,

The death of Gustave A. Ludwig of blood potsoning, induced by handling poultry, has excited comment among St. Louis physicians. The man died at the Rebecca Hospital, in spite of the best of medical attention. Saturday afternoon.

Ludwig was a poultry dealer in Biddle Market. Thanksgiving Day he complained that he had an unusually painful finger. He alled upon his family physician and was given a salve. The member continued to swell, and the inflammation spread to the

wrist, and then to the clbow. This, however, was not an abnormal oc-currence, except in its severity. It is said that poultry dealers are frequently afficted company will be ready to commence opera-tions shortly after January I, and that a seven-story building will be erected if a wig said yesterday that her husband had with similar sweilings of the hands. Thes was to be invaded by Eastern manufactur-ers shortly after Jaunary I. The underwear people are believed to be the first of many manufacturers that will follow and be in working condition in time to capture the trade that will come to St. Louis dur-ing the World's Fair year, and before and

wig said yesterday that her husband had not become alarmed until after two physicians told him he had blood poisoning, and recommended him to the care of experts.

The sick man then went to the Rebecca Hospital in Grand avenue. It was soon seen that the disease had progressed too far to be remedied by amputation. He was treated in every way known to advanced medical science, but steadily declined until the end. The point which is interesting physicians is to discover why dressing poultry.

Should induce sores on the hands of the dealers.

Gustave Ludwig was 45 years old, and had been a resident of St. Louis for the last nine years. He leaves a widow and one daughter 12 years old, besides a brother, Paul Ludwig, in Canada, and a sister, Mrs. College, but take piace Tuesday afternoon from the late residence, No. 1212 North Twelfth street, to St. Peter's Cemetery.

Schluster says Moebus is the man who went behind the bar and rifled the cash box. He says he will apply for a warrant against Moebes this morning.

Shaughnessy was identified as one of a up John Isell in his saloon at No. 2801 La Salle street and took \$10 from the cash drawer. Shaughnessy was identified by one of the men, who was in the saloon at the time. "Buck" O'Malley has confessed to being implicated in this robbery. Shaughnessy is 19 years old and gave his address as No. 219 Eugenia street. He says he worked as a driver for the Adams Express Company for five years, until last July. Since that time, he says, he has done nothing.

Large Amount of Goods Recovered.

When the detectives searched the house after the raid they recovered, in addition to the burgiars' tools, a large amount of wearing appared, which is supposed to have been stolen from the Peerless Laundry, at No. 227 Clark avenue. The office was entered several nights ago and an attempt made to blow open the safe. A large amount of wearing appared was stolen.

The other men arrested in the raid gave the mannes of Louis Jackson, Edward Mackson, James Kelly, Michael Choemen, Arthur McDermott, John Smith and Peter Moriar. Chief Desmond stated last night that their cases would be presented to the Grand Jury at once.

Moebes was sentenced in 187 to serve five years in the Pentlentiary for burgiary. He entered the house of Doctor Alt of West Pine boulevard at 3 o'clock in the morning and with others stole jewelry and money. He was pardoned from the Pentlentiary.

THE ZINC AND LEAD REPORT.

Advance in Zinc Ore Prices-St. Louisan Influences Market. REPUBLIC SPECIAL.

Joplin, Mo., Dec. 8.-Thirty dollars a ton was a common price for zinc ore during the past week, and there were several choice was a common price for zinc ore during the past week, and there were several choice lots sold at \$20.50 per ton. There was an almost general advance of from 50 cents to \$1 per ton. The sales were larger than the preceding week, and there are producers who still decline to sell. These are stimulated in their effort to hold for higher prices by the fact that Mr. S. C. Edgar of \$1. Louis is piling up ore at his mine in Carterville. As Mr. Edgar is engaged in the smelting business and buys ore to convert into spelter, it is believed that he is in a position to know when the top has been reached, and there are some producers who are willing to let him set the example of holding for an advance in the market price. It was predicted here last night by members of the Missourt and Kansas Zine Miners Association that the top price would go to \$12 and perhaps \$13 this week. The members of the association are so well pleased with the export plan that they will have a big meeting to-morrow night to enthuse over the resultant higher prices, and the expectancy of further advances in the ore market.

expectancy of further advances in the ore market.

Lead ore continues in active demand at tello per ton, with four companies in the market for this product.

The total value of the ore sold so far during 1901 has passed the seven and one-half million-dollar mark, being, in exact figures, \$7.542.120, only \$23.618 less than the same period of last year, notwithstanding ore prices have averaged lower. But the increased product makes up for the decreased average price, the sales being 10.588 tons of zinc and 5.656 tons of lead larger. The year's total will push close to a total of \$5.99,000.
